

Stay Connected While Traveling

Cellhire manages a broad portfolio of international voice and data solutions. This portfolio can be tailored to meet individual requirements to ensure the end user has the most appropriate solution for their destination. The portfolio includes the following rental solutions:

• Global Phone Rental

One phone, one number enables the international business and leisure traveler to stay connected in more than 170 countries throughout the world with just one phone.

• Local Airtime Solutions

Cost effective local airtime services for key destinations worldwide.

• Follow Me

A call forwarding platform provided for clients requiring complete continuity of their domestic mobile service -

clients can rent an international solution and still be contacted on their own US cell number.

Follow Me can be applied to any airtime solution

• American 2-Way Radio Rental

For use in the US and select cities throughout Canada and Latin America with VoiceMail and 2-way radio. Ideal for large groups and events.

• Bundle Packages

Flexible call bundles for use in the USA! Choose from 500 to 5000 minutes.

• Korean Phone Rental

Local phone number, English-character display and the option of free incoming calls or keeping your own mobile number.

• Japanese Phone Rental

Local phone number, English-character display and the option of free incoming calls or keeping your own mobile number.

• BlackBerry® Rental

E-mail delivered to the palm of your hands via an all-in-one unit offering e-mail, voice and text messaging in more than 70 countries worldwide including a Japanese BlackBerry specifically for use in Japan.

Business & Personal POP3 E-Mail Access Anywhere in the World

• Data Card Rental

Cellhire's wireless American, International and Japanese data cards offer a simple and hassle-free method of connecting to the Internet while on the move. Data cards plug directly into the user's laptop PC slot so it removes the need for mobile phones or other devices to provide connectivity.

• Satellite Phone Rental

Iridium & Thuraya handset that operates in the most remote regions of the world including aboard cruise ships, with the option of free incoming calls or keeping your own mobile number.

• GPS Tracker

Track your footsteps around the globe. Whether you're heading into West Texas, the Outback or an African safari, we've got our customers covered. The GPS Tracker allows to always know where your loved ones or business colleagues are.
